

## UCF-30

Semi-Automatic Capsule Filling Machine

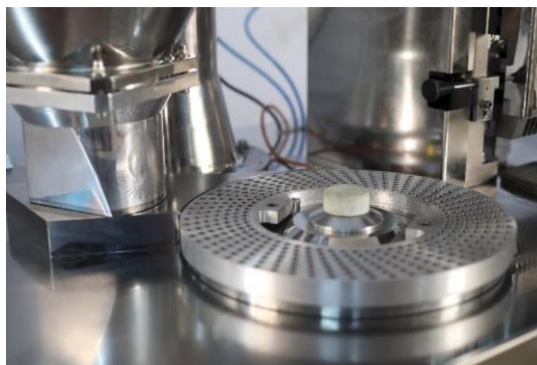

## SEMI—AUTOMATIC SOLUTION

Our Semiautomatic Capsule filling machine fills wide range of capsules from Capsule Size 00 to S, using Auger principle to fill powder accurately

- We offer the Semi-Automatic machine with complete stainless steel body, Easy maintenance and Light weight Magnesium Loading Ring for Easy and Comfortable Change over Process
- Pellet and Tablet Attachments can be provided with ease with all Series of machines
- Separate Loader Station TL-80 can be added to increase the output for Production.

### MACHINE DATA

| Data                  | Capsule Size 00           | Capsule Size | Capsule Size 1-5 |
|-----------------------|---------------------------|--------------|------------------|
| Loading Ring Holes    | 360                       | 420          | 480              |
| Production Per Hour   | 21600                     | <b>25200</b> | <b>28800</b>     |
| Production with TL-80 | 36720                     | <b>42840</b> | <b>48960</b>     |
| Technical Data        |                           |              |                  |
| Power Consumption     | 3.5kw ( with Vacuum pump) |              |                  |
| Electrical Supply     | 410V/3phase 50Hz          |              |                  |
| Air Requirement       | 30-40 LPM                 |              |                  |
| Air Pressure          | 6 kg/Sq.cm                |              |                  |
